

The Advantages
of G-Floor®

For all your hard working trailers, G-Floor® Trailer Flooring is a superior product and is competitively priced. G-Floor® is constructed of 100% polyvinyl, so it lasts longer and won't need replacement even with excessive wear. Easy to clean up, simply sweep or use a damp mop!

Weatherproof & Waterproof

Seamless and impermeable solid polyvinyl; water cannot penetrate from above or below. Prevents subfloor deterioration and contamination.

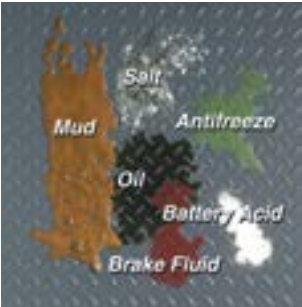

Extremely Durable

G-Floor's durability not only protects your subfloor from damage but won't crack, peel, tear or curl under heavy use.

Easy to Clean

Weatherproof, waterproof and slip-resistant, G-Floor's non-porous surface makes cleaning a breeze, simply sweep out or use a damp mop!

Chemical Resistant

Resists automobile oils, acids and fluids, road salt, other harmful chemicals, and withstands scuffs and dirt from shoes and the outdoors.

Easy to Install

Roll-out installation, trim-to-fit. Spun bound backing grabs glue tight for easy and fast installation.

G-Floor® Trailer Flooring is perfect for cargo trailers, toy haulers, concession trailers, luxury horse trailers, travel trailers, pop-up trailers, 5th wheels, utility trailers, restroom trailers and more! Available as one solid piece polyvinyl floor with no seams, it's so easy to roll out and install, super easy to clean, and offers maximum protection from the elements.

STRONGER LASTS LONGER

TRAILER FLOORING

THE WORLD'S MOST DURABLE FLOORING

G-Floor® Trailer Flooring for OEM's and dealers offers superior quality, extreme durability, easy installation and incredible versatility. Reliability, safety and value are at the forefront of our trailer flooring. Our spun bound backer grabs glue tight for ease of permanent installation saving you time and money. You get a better product and return on investment because it lasts longer than the competition. G-Floor is manufactured with 100% polyvinyl through and through, unlike traditional thermoplastic olefin (TPO) polymer/filler blends. **Manufactured in the USA**

Available Sizes

SOLID

Available as one solid piece polyvinyl floor with no seams, it's so easy to roll out and install, super easy to clean, and offers maximum protection from the elements.

Imaged

Want your trailer unit to stand out? G-Floor® Imaged™ Flooring with ceramic surface texture is the answer. The graphic image is welded to the underneath side of the clear polyvinyl, leaving the image protected by the full thickness of the polyvinyl flooring.

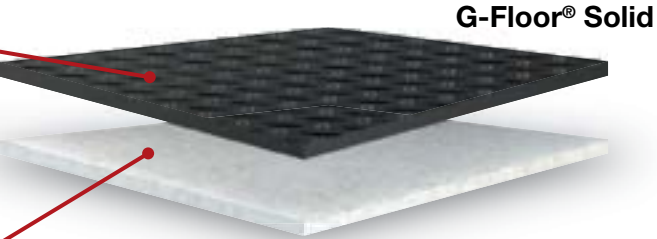

The Composition of G-Floor®

G-Floor® is a homogeneous polyvinyl floor covering with a spun bound backing and it is waterproof, slip and stain resistant, mold and mildew resistant. G-Floor® offers a variety of appealing surface textures and can withstand high volumes of traffic and is tough enough to drive a car on.

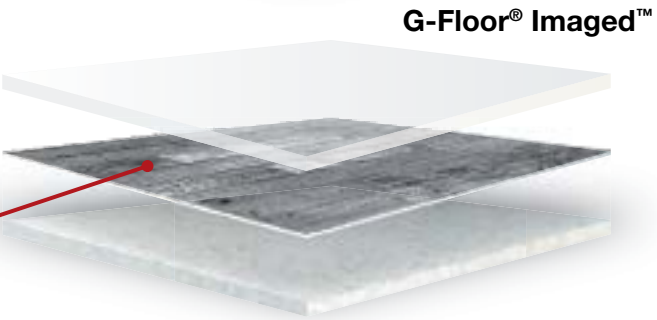

Polyvinyl Wear Layer

- 100% solid polyvinyl, no fillers
- waterproof throughout
- embossed, decorative surface
- protects against excessive wear
- easy to clean
- provides superior stain resistance
- rated for commercial & vehicle traffic

Fibrous Under Layer

- minimizes expansion & contraction
- covers subfloor imperfections
- adds additional cushion
- provides maximum adhesive bond strength
- assists with installation

Imaged, Decorative Layer

- endless image possibilities to better showcase your trailer
